

CONT. EDUCATION: SUICIDE RISK ASSESSMENT

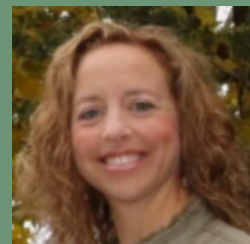

THIS TRAINING WILL COVER:

This training is intended to help clinicians learn best practices in suicide risk assessment. This training will offer 4.0 CE hours *NBCC/ACEP #6760, for eligible participants. Participants will become familiar with chronic and acute risk factors for suicide, protective factors for suicide, and how to formulate an overall level of suicide risk based on these factors. In addition, participants will learn when to screen for suicide risk, how to talk with individuals who may be suicidal to assess risk, and how to document the suicide risk assessment process.

TRAINING OBJECTIVES:

At the end of this training, participants will be able to:

- Identify the 4 components of Suicidality
- Summarize the risk and protective factors for suicide
- List the elements of appropriate documentation of suicide risk, response to risk, protective actions, and interventions

Sarah Henrickson,
MSSW, LCSW

Sarah is a Clinical Team Manager in Journey Mental Health Center's Emergency Services Unit. She has over 20 years' experience as a crisis worker, providing community-based crisis intervention services to all ages, including suicide risk assessments, and evaluations for involuntary psychiatric admissions. Sarah additionally functions as the Law Enforcement Liaison for Journey, collaborating with Dane County Law Enforcement agencies to ensure effective communication and best practices. In 2016, Sarah became the first embedded crisis worker with the Madison Police Department. She now oversees multiple embedded crisis workers with various first responder agencies. She has conducted numerous trainings for law enforcement, clinicians, and other community members on a variety of topics including mental illness, suicide risk, and mental health civil commitment law.
